Farm Associate

Cold Spring Harbor Laboratory, located on the North Shore of Long Island is currently searching for a Farm Associate to provide agricultural and greenhouse assistance in support of the Laboratory’s plant research activities.

Responsibilities include integrated pest management, irrigation, fertilizing, weeding and rototilling. Additional duties include pesticide applications, recipe soil mixing and flat filling, flat and pot washing, growth chamber upkeep, including light changes and pest detections. The candidate hired will also be responsible for general equipment maintenance and supervision of seasonal farm hands.

Position requirements:

A Bachelor’s degree in a “green” related field is preferred. At least three years of agricultural or greenhouse experience is preferred. NYS Pesticide Applicator’s License preferred or willing to obtain. Valid driver’s license and ability to drive a tractor (clutch) is required. Ability to work occasional weekends and holidays required.

This position also requires lifting up to 30 lbs; bending, stretching and standing and walking for long periods. The candidate hired will be exposed to outdoor elements including sunlight. Knowledge of pesticides preferred.

We offer a competitive salary and benefits package.
