Nursery Assistant

Essentially we have a little organic nursery and need help with basic tasks such as splitting plants and re-potting them, as well as organizing them and labeling. I also have many species of perennials, some of which are rare and may be of interest to someone into plants. I could also use some help in identifying some of the plants, so if you know of someone with some expertise who would interested, that would be wonderful. For basic work like splitting, etc. we will pay $10/hour cash. There are no set hours. We are around most evenings and all day Thursday - Sunday, and intermittently the other week days. The trusted worker could eventually come on their own and submit their hours to us.

We can be reached at 631-601-5859
or my email drheidiburry@gmail.com

Please let me know if you have any other questions. Thank you so much!

Sincerely,

Heidi
