STEMDIVERSITY SUMMIT
Science, Technology, Engineering and Mathematics

Promoting STEM/STEAM through Active Learning

Connecting K-12, Higher Education, Community & Workforce

The urgency to continue to act together to strengthen economic and workforce development through education and industry is imperative.

The 2015 STEM Diversity Summit will bring together leaders such as you from business, education, government and non-profit organizations to understand recent developments, learn from others at the state and national level, and engage in shaping solutions relevant to our region.

Join the movement on Long Island to help communities connect, collaborate, and ultimately compete through the lens of STEM education.

Research exhibits in STEM will be featured by public school and college students, as well as presentations on sustainable energy technologies and biotechnologies by national, regional, and local businesses.

- Over 975 attendees from industry, education and community
- National and local distinguished speakers
- Over 30 business and organizational sponsorships

Friday, March 20, 2015
8:00 AM – 1:30 PM
Farmingdale State College
Roosevelt Hall
2350 Broadhollow Road, Farmingdale, NY 11735
