STEMDIVERSITY SUMMIT
Science, Technology, Engineering and Mathematics

STEM/STEAM In Action through Hands-On Innovation
Connecting K-12, Higher Education, Community & Workforce

The urgency to continue to act together to strengthen economic and workforce development through education and industry is imperative.

Engaging the Future
Join the movement on Long Island to help communities connect, collaborate, and ultimately compete through the lens of STEM education.

Research exhibits in STEM will be featured by public school and college students, as well as presentations on sustainable energy technologies and biotechnologies by national, regional, and local businesses.

- Over 1100 attendees from industry, education and community
- National and local distinguished speakers
- Over 30 business and organizational sponsorships

Friday, April 1, 2016
8:00 a.m. – 1:30 p.m.
Registration & Opening Session
Farmingdale State College
Nold Hall
2350 Broadhollow Road, Farmingdale, NY 11735
