General Information

Farmingdale State College enrolls a full-time undergraduate student population of 7742 and a part-time undergraduate student population of 2259. The college also enrolls a full-time graduate student population of 20 and a part-time graduate student population of 44. The campus employs a full and part-time workforce (excluding undergraduate students) of 1,503. This year, 418 students resided in 3 residence halls on the campus. To help prevent crimes, it is always important to secure valuable belongings and be aware of one's surroundings.

To emphasize crime prevention awareness, campus educational programs, seminars, videos, posters, brochures, student newspaper articles, messages from administration, etc., address personal safety including rape/sexual assault, substance use/abuse, importance of locking doors and windows, "buddy" system, and fire and property safety such as operation ID, and taking belongings home during breaks. This information also includes safety services such as escorts, counseling, mental health services, medical resources, and emergency services.

General Information

The Student Right-to-Know and Campus Security Act was signed into law in November of 1990. Title II of this act was known as the Crime Awareness and Campus Security Act which was amended and renamed in 1998 as the Jeanne Clery Disclosure of Campus Security Policy and Campus Statistics Act. This law mandates that institutions receiving Title IV federal funds disseminate crime statistics for certain serious offenses that occurred on campus and in adjacent areas for the current and previous two calendar years. The purpose of this report is to provide our current and prospective faculty, staff, and students with campus safety information including crime statistics and procedures to follow to report a crime. This document was compiled by the University Police Department and is also available on the Web at <http://www.farmingdale.edu/university-police/pdf/security-report.pdf> The College will not retaliate or allow any retaliation toward a person(s) who reports alleged violations of this act.

Confidentiality: Students have the option of having their directory information unlisted. Details are available from the Registrar's Office or in the Farmingdale State Code of Conduct.

Missing Students

Students are encouraged to identify a person who College personnel should contact in the event they are determined to be "missing". In addition to confidential crime reporting procedures, students who wish to identify a confidential contact for police to utilize in the event they are reported missing may do so within their web account at <https://oasis.farmingdale.edu/> . From the OASIS main menu, click "Personal Information", then either the "View" or "Update" Emergency Contacts links. Follow the links on the update page to add a new contact and select "Missing Person Contact" as the "Relationship". If a student is reported missing to University Police, an attempt will be made to locate the student to determine his or her state of health and wellbeing. If at any point during the investigation, information arises that indicates a missing person crime report should be filed, the information will be shared with all appropriate law enforcement agencies, including the Suffolk County Police Department. Appropriate investigative measures will be coordinated with the involved law enforcement agencies. If the student listed a missing person contact, University Police will contact the listed individual. Parents may be notified as part of the investigative process. If the student reported missing is an off campus student, the appropriate law enforcement agency will be contacted. Investigative and crime reporting procedures will be coordinated by that agency or the agency in the jurisdiction where the student was last reported. University Police will assist as appropriate. If the student listed a missing person confidential contact in Banner, University Police will contact the listed individual.

Missing persons should be reported directly to University Police. **Do not wait** if you believe a student is missing. Federal law states that the campus is required to provide missing person notification to: 1) all local police agencies pursuant to the Memorandums of Understandings; 2) the student's designated contact person if provided; and 3) parents of students under 18 years of age. University Police immediately conducts an initial investigation, and if after a reasonable period of time (not more than 24 hours) the student has not been located, University Police will proceed with the required notifications. The sooner an investigation begins, the better the chance of locating a missing person.

Section 355 of the NYS Education Law states "Missing student" means any student of an institution subject to the provisions of this subdivision, who resides in a facility owned or operated by such institution and who is reported to such institution as missing from his or her residence.

Paper copies of this document are available at the University Police Department, the Admissions Office, and the Human Resources Office.

Emergency Response

The College's leadership is trained in assessing emergency situations, appropriately responding to said emergencies, and initiating necessary communication with those immediately impacted by the event and the greater campus community. The chief of University Police, in consultation with the Executive Vice President – Chief Financial Officer, is responsible for determining the level of an incident. In the absence of the chief, the assistant chief, lieutenants, or the officer in charge, will make appropriate consults and level determination. If there were a serious, immediate threat to the health and safety of the campus community, the emergency response protocol would be enacted as appropriate to the situation. This can include activation of RAVE Alert telephone and text notification, campus siren, loudspeaker, the campus video messaging system, and an alert message on the Farmingdale State College home page. Notification to the greater campus community is coordinated between University Police and the Public Relations Office pursuant to policies and agreements with local law enforcement agencies and media outlets. Subsequent to the emergency response and for other non-imminent serious incidents, a **"Campus Crime Alert"** or **"Timely Notification Bulletin"** would be prepared and distributed on campus via campus e-mail, video messaging system, building main entrances, and/or the University Police Web site. Such reports shall be prepared and distributed within two hours of said determination. Standard notification procedures may be altered if the emergency response authorities determine it would compromise efforts to assist a victim, or compromise efforts to contain, respond to or otherwise mitigate the emergency. Note that Farmingdale State College tests its entire emergency notification system two times per year, and its siren and fire alarms three times per year. Pursuant to its procedures, fire drills are not announced, and testing of the other emergency systems may be announced or unannounced. For more information on the emergency notification system, visit <http://www.farmingdale.edu/university-police/index.shtml>

Standard Facility Access

Students and employees have access to academic, recreational, and administrative facilities and locations hosting cultural and recreational events during scheduled hours. Access to the residence halls is limited to students and their guests according to guest procedures (see Code of Student Conduct and The Guide to Residence Hall Living available from the Residence Life Office) as well as residence hall and facilities personnel in the performance of duties.

Reporting Crimes

All members of the campus community are urged to report criminal incidents, emergencies and suspicious activity. The campus emergency phone number is (934) 420- 2111 or 911. These numbers should be used for all fire, medical, and police emergencies. All reports are classified, logged, and responded to thoroughly. The on-campus emergency number is 911. Crimes in progress and any other emergency on campus can be reported directly by any student or employee to University Police who can also be reached by using the campus emergency blue light phones or the residence hall lobby phone. University Police officers are dispatched immediately to the site of the complaint. Incident reports are prepared and are kept on file. All criminal activity on campus is to be reported to the University Police Department.

People need to be aware that no matter how safe our community is, the potential for crime exists everywhere, including college campuses. Everyone in the community must do his or her part to keep themselves and others safe. Do not let your behavior put yourself or others at risk.

Safety and Security Responsibility

University Police

Campus safety and law enforcement is coordinated by the University Police Department which has a force of sworn police officers with full arrest powers. SUNY police officers must meet the highest standards in New York State for law enforcement officers. Officers have successfully completed a basic training program administered by the State University at the New York State Police Academy in Albany, New York, or a local regional academy, and undergo continuous training to upgrade their skills. Officers have been trained in emergency medical procedures and first aid. Foot, bike, and vehicle patrols are conducted on campus and in residence hall areas, 24 hours a day, 365 days a year. The Department's objective is to provide a safe environment and protect the lives and property of students, employees, and visitors, pursued within the framework of the State University of New York rules and regulations and all local, state, and federal laws. The investigation of crimes committed on campus falls under the jurisdiction of University Police. A daily log of incidents that occur on campus is kept and is available for the public to view from 8 a.m. - 4 p.m. Monday through Friday or by request. The log includes the date, time, general location, and disposition of the complaint, and entries are available for review (unless they are deemed "confidential" by the chief of University Police for safety and security reasons). University Police also works closely with the Suffolk County Police Department to assist with incidents that occur off campus but may involve campus staff or students. The New York State Campus Security Act requires all public, private, and community colleges and universities in New York to have a formal plan that provides for the investigation of missing students and violent felony offenses on campus. This includes written agreements between university and college authorities and the municipal law enforcement agencies having concurrent jurisdiction. The University Police Department at Farmingdale State College has a local Mutual Order of Understanding (MOU) with the Suffolk County Police Department, in the event that a violent felony or a missing student is reported to campus authorities. Should such a report be received, Farmingdale State University Police would request assistance from this agency and would conduct a complete investigation.

Campus Safety Advisory Committee (CSAC)

The Campus Safety Advisory Committee's responsibilities are: to advise the president and chief of University Police on matters of campus security, public safety (including signage and parking), and personal safety; to review and suggest improvement in safety and education programs; to assess availability of counseling services for crime victims; to review victim referral and campus response procedures for sexual assault situations; to conduct ongoing assessment of the quality of campus personal safety policies, practices, procedures, and programs; and to conform to the 1990 Amendment to Section 6450 of the Education Law by providing information to incoming students about sexual assault prevention measures, penalties, and related security procedures. Annual reports must be filed with the commissioner of education.

The Students of Concern Committee

The Students of Concern Committee's intent is to formalize a process for reporting and addressing specific, alarming behaviors that do not fall within existing reporting procedures such as those established by the Counseling Center, University Police, Residence Life and Housing, and the Dean of Students. Specifically, this team will: create a care management system to intervene early with students who are at risk; watch for information, both oral and written, from faculty and staff about behavior that may be threatening; stay attuned to escalating behavior or potential physical violence; and develop a plan of action for the student such as contacting parents, referrals to various campus resources, disciplinary action, etc.

Physical Plant

The campus Physical Plant maintains the campus buildings and grounds with a priority of safety and security. The staff inspect campus facilities regularly, promptly make repairs affecting safety and security, and respond immediately to reports of potential safety and security hazards such as broken windows and locks. For concerns about the physical safety of campus buildings and grounds, call the Physical Plant office (ext. 2017), 8a.m.—4:00 p.m. Monday—Friday.

Emergencies outside of these hours should be reported to University Police (ext. 2111).

The campus is well lit, and improvements on lighting are a constant consideration. Farmingdale State has installed high-intensity sodium vapor lights on buildings, in parking lot areas, in areas with heavy landscaping and trees, and along pathways frequently traveled by students. As noted previously in "reporting crimes", outdoor emergency blue light phones and residence hall door phones are connected directly to University Police. In addition, security cameras have been added to areas vulnerable to vandalism and continue to be added to facilities as they are improved and renovated.

Residence Life & Housing

The Residence Life staff is committed to providing a safe environment for students within the residence halls. Students are made aware of safety concerns as well as prevention tactics and personal responsibility through a variety of in-hall mediums. Each residence hall is supervised by a residence hall director — a professional staff member who resides within the hall. Each building is also staffed with a number of trained resident assistants (RAs). There is a designated residence hall director "on duty" from 4:30 p.m. to 8 a.m. each weekday and all day every weekend. Each residence hall has an RA "on duty" from 8 p.m. to 8 a.m. each weekday and 9 p.m. to 8 a.m. on weekends. Residence hall students are issued a key to their room and use their Farmingdale State College ID card for access to their own residence hall main entrance. Hall entrances are locked 24 hours a day.

For residence hall guest and other policies and procedures, see the

"Room & Board License" or "The Guide" available from the Residence Life Office.

DEFINITIONS RELATED TO REPORTING LOCATIONS

Federal law requires that campuses report specific criminal activities that occur on campus property and specific areas around those properties. Crimes occur in the community beyond what is required to be reported in this document. Students are advised to exercise caution in ALL locations.

Reporting Locations

On Campus: includes all offenses reported on the main campus property, Aviation Facility at Republic Airport and in campus buildings.

Residence Halls: includes all offenses reported inside a residential facility and is a subset to the on-campus category.

Non-Campus: includes property owned or rented by the University outside campus boundaries, specifically the Brentwood EOC site.

Public Property: includes thoroughfares, streets, sidewalks, parking facilities, and public parks or park-like settings immediately adjacent to and accessible from the campus (a reference map is found later in this document).

POLICY STATEMENT ON DRUGS AND ALCOHOL

Compliance with the Drug Free Schools and Communities Act of 1989

Farmingdale State College hereby prohibits the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on our property or as any part of our institutional activities.

The College will impose sanctions on students and employees who violate this policy consistent with local, state, and federal law. Students will be subject to the judicial procedures specified in this publication. Corrective action may include the completion of an appropriate rehabilitation program.

The College will interpret local, state, and federal regulations in the strictest sense to assure a drug free work place.

On an annual basis, the College will provide to each student and employee information describing the health risks associated with the use of illicit drugs and the abuse of alcohol.

The College is committed to offering employees and students counseling and/or referral to the appropriate agencies for problems associated with drugs and alcohol. For students, the Office of Mental Health Services is available for confidential counseling and referrals.

Finally, Farmingdale State College commits to biennial reviews of our programs associated with this statement to determine program effectiveness and implement necessary changes. It is also our intention to ensure consistent application of this policy to all students and employees alike.

College Regulations Regarding Alcoholic Beverages

The College has an obligation to develop policies and procedures that reflect our relationships to the larger community and to New York State. The campus alcohol policy has been revised because of legislative amendments to the New York State Alcohol Beverage Control Law. The College will, however, continue to stress the importance of alcohol education within the campus community. As is true with any policy or regulation, voluntary compliance is essential for its successful implementation.

While procedures have been developed for addressing violations of the campus alcohol policy, respect for issues of student privacy and security from unreasonable intrusions will be consistent with policy and past practice.

The College will comply with the requirements of the New York State Alcohol Beverage Control Law. Amendments to the law provide that, "No person under the age of 21 shall possess any alcoholic beverage with the intent to consume such beverage." College regulations pertaining to this law will be implemented in the following manner:

Residence Halls

In accordance with the policy detailed in the Residence Life Handbook, alcoholic beverages are permitted within campus residential facilities. However, no events will be approved in which alcohol will be served or consumed. Residents are subject to all local and state laws concerning the use, possession, sale, and transportation of alcoholic beverages.

Other Areas

College policy prohibits open containers of alcoholic beverages in all outside campus areas. Bringing alcoholic beverages to any public or private event on campus is not permitted.

Occasional Service

The Office of the Vice President for Enrollment Management and Student Engagement (OEMSE) is responsible for establishing application procedures and enforcing guidelines under which alcohol may be served at any College event. The provision (ordering, distribution or service) of alcohol at events may only be done by the contracted campus food service provider.

Application to Serve Alcohol

Individuals or organizations requesting alcohol service must do so by completing the appropriate College Activity Registration forms and submitting them to the Office of the Vice President for Enrollment Management and Student Engagement or his/her designee, no later than 30 days before the proposed event. The OEMSE, in consultation with the appropriate divisions of the College making up the Alcohol Permitting Committee, will inform the applicant of the decision within 48 hours of the receipt of the application.

Violations (resulting from “occasional service” as outlined above)

Violation of this policy will result in appropriate disciplinary sanctions up to and including dismissal, as provided for under established College judicial procedures. While students are subject to the provisions of campus alcohol policy, the following information is provided regarding provisions of the Alcohol Beverage Control Law:

- *Violators are subject to a fine of up to \$50 per offense, but are not subject to arrest. Alcoholic beverages involved in alleged violations of this law may be seized by authorized law enforcement officials, including campus police officers. Disposal and destruction of seized alcoholic beverages are also authorized but cannot be carried out until three days after the initial appearance date, unless otherwise ordered by a court.

- * Persons under the age of 21 who present falsified or fraudulently altered proofs of age for the purpose of purchasing or attempting to purchase alcoholic beverages are guilty of a violation, punishable by a fine of up to \$100 and a community service requirement of up to 30 hours. Previously, violations of this section were punishable only by the imposition of a one year probationary period and a fine.

- * A person under the age of 21 who presents an altered New York State driver's license for the purpose of illegally purchasing an alcoholic beverage may be subject to a suspension of that driver's license for up to 90 days and may also be required to apply to the Department of Motor Vehicles for a restricted use driver's license following the suspension.

- * No person shall sell, deliver, give away, permit, and procure to be sold, delivered, or given away, any alcoholic beverages to any intoxicated person or any person under the influence of alcohol.

- *Any person who shall be injured in person, property, means of support or otherwise by an intoxicated person, or by reason of the intoxication of any person, whether resulting in his/her death or not, shall have a right of action against any person who shall, by unlawfully selling to or unlawfully assisting in procuring liquor for such intoxicated person, have caused or contributed to such intoxication; and in any such action, such person shall have a right to recover actual and exemplary damages.

- * Social host liability creates civil liability for anyone who knowingly furnishes alcoholic beverages to any intoxicated person or anyone under the legal age of purchase if intoxication results in injury or damages to a third party.

New York State Education Law prohibits hazing that involves the forced consumption of alcohol.

Drugs

The drug problem on campus is complex and solutions to drug misuse are difficult. Nevertheless, the possession, sale, or use of any illegal drug on or off campus cannot be condoned.

In addition to taking appropriate action on its own part, the College will continue to cooperate with appropriate health and law enforcement agencies in enforcing this regulation. No sanctuary for those who violate state and federal narcotic laws will be provided by any agency or office of this College. The penalties both on and off campus for the possession and/or sale of illegal drugs are very severe.

The College, through the Farmingdale ADAPT Campus and Community Coalition, is committed to providing the campus with an ongoing program to deal with the problems related to drug abuse and aimed specifically at its prevention through education.

Effects and Health Risks of Drugs and Alcohol

Alcohol

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood of an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including spouse and child abuse. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life threatening. Long term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs, such as the brain and liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome (FAS) or fetal alcohol effect (FAE). Both FAS and FAE are the leading known cause of mental retardation, which is irreversible. To prevent this syndrome, total abstinence from alcohol during pregnancy is necessary. Alcohol should also be avoided if you are trying to become pregnant, as significant damage may occur before pregnancy is discovered.

Tobacco and the Body

Tobacco, commonly smoked through pipes, cigars, and cigarettes, can also be chewed and inhaled in the form of snuff. Nicotine is the active ingredient in all forms of tobacco. Nicotine stimulates the heart and central nervous system and is a power constrictor of small arteries. Insufficient oxygen to the heart is the cause of heart attacks. Smoking causes the lungs and bronchioles to be inflamed and congested. Possible health risks of tobacco include arteriosclerosis, emphysema, chronic bronchitis, heart disease, and lung cancer.

Cannabis

(Also referred to as marijuana, pot, grass, reefer, joint, acapulco gold, sinsemilla, thai sticks, weed, THC, marinol, hashish, hashish oil)

The psychoactive ingredient in marijuana is tetrahydrocannabinol (THC). The amount of THC in a joint is what affects the user. THC is used medically as an anti-nauseant for cancer patients receiving chemotherapy.

Possible signs of use or abuse of cannabis include: increased heart and pulse rate, bloodshot eyes, increased appetite, dryness in mouth and throat, hallucinations, paranoia or panic, impaired memory, altered sense of time, and decreased concentration, reaction time, and coordination.

Health risks include: damage to heart and lungs, damage to brain nerve cells, lung cancer, memory disorders, interference with psychological maturation, temporary loss of fertility in men and women, psychological dependence, and bronchitis. For pregnant women, health risks are premature births and low birth weights.

Designer Drugs

Designer Drugs are lab-made versions of drugs that are designated controlled substances under U.S. law. Under provisions of the Controlled Substance Analog Act, designer drugs are illegal. Early designer drugs included substitutes for heroin, amphetamines and hallucinogens, including MDMA (also referred to as “E,” “X,” “XTC,” ecstasy).

Risks of designer drugs are often related to how the drugs are made and used. Base chemicals such as phenyl acetic acid, formaldehyde, carbamate, acetic anhydride, and others can build up to toxic levels in the labs. In the process of synthesizing, some chemicals can poison the final product, creating seizure inducing forms of PCP. Many times the chemist does not know exactly what drug has been created until it has been “tested” on a subject and confirmed by medical examiners.

MDMA, MDA, XTC, ADAM, Rhapsody, E, X, ecstasy.

Risks associated with MDMA include the possibility of overdose and related risk of hypothermia. Because MDA/MDMA are amphetamines tolerance develops quickly and overdose is possible, liver damage and exhaustion can occur. The drugs are known to intensify heart problems. Research indicates that there may be damage to brain cells that manufacture the neurotransmitter serotonin.

The Registry contains information on sex offenders classified according to their risk of re-offending as follows: low risk (level 1), moderate risk (level 2), and high risk (level 3). The Act requires that DCJS also maintain a subdirectory of level 3 sex offenders. The DCJS Sex Offender Registry site may be found at http://www.criminaljustice.ny.gov/SomsSUBDirectory/search_index.jsp and contains their Subdirectory of Level 3 sex offenders as well as other information regarding New York State's Sex Offender Registry. Sex offenders in New York are required to notify the Registry of any institution of higher education at which he or she is, or expects to be, whether for compensation or not, enrolled, attending or employed, and whether such sex offender resides or expects to reside in a facility operated by the institution. Changes in status at the institution of higher education must also be reported to the Registry no later than ten days after such change is available to the public.

Sexual Crimes and Assistance for Victims

Victims of sexual assault should immediately report the incident to University Police (ext. 2111) if it occurred on campus or to an off-campus police agency if it occurred off campus through the 911 emergency service.

Title IX Sexual Harassment and Sexual Misconduct Policy

Sexual misconduct of any kind is a form of discrimination and is unacceptable at the College. We cultivate an atmosphere of freedom of expression, yet such an environment is only possible in conjunction with the responsibility to observe the rights of others. The President and the College community will not tolerate sex discrimination nor condone it in any form, and are committed to providing and preserving an atmosphere free from sexual misconduct and sexual harassment.

Sex Discrimination - behaviors and actions that deny or limit a person's ability to benefit from, and/or fully participate in the educational programs or activities or employment opportunities because of a person's sex. This includes but is not limited to sexual harassment, sexual assault, sexual violence by employees, students, or third parties. Employees should report sexual harassment that they observe or become aware of to Human Resources.

Sexual assault - defined as a physical sexual act or acts committed against a person's will and consent or when a person is incapable of giving active consent, incapable of appraising the nature of the conduct, or incapable of declining participation in, or communicating unwillingness to engage in, a sexual act or acts. Sexual assault is an extreme form of sexual harassment.* Sexual assault includes what is commonly known as "rape," whether forcible or non-forcible, "date rape" and "acquaintance rape." Nothing contained in this definition shall be construed to limit or, conflict with the sex offenses enumerated in Article 130 of the New York State Penal Law, which shall be the guiding reference in determining if alleged conduct is consistent with the definition of sexual assault.

Sexual Harassment in the Educational Setting - unwelcome conduct of a sexual nature. Sexual harassment can include unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature. Sexual harassment of a student denies or limits, on the basis of sex, the student's ability to participate in or to receive benefits, services, or opportunities in the educational institution's program.

Sexual Harassment in the Employment Setting - unwelcome sexual advances, requests for sexual favors, or verbal or physical conduct of a sexual nature when any of the following occurs:

Submission to such conduct is made a term or condition of an individual's continued employment, promotion, or other condition of employment.

Submission to or rejection of such conduct is used as a basis for employment decisions affecting an employee or job applicant.

Such conduct is intended to interfere, or results in interference, with an employee's work performance, or creates an intimidating, hostile, or offensive work environment.

Such conduct, whether committed by supervisors or non-supervisory personnel, is specifically prohibited. This includes, but is not limited to: repeated offensive and or unwanted sexual flirtations, advances, or propositions; verbal abuse of a sexual nature; graphic or degrading verbal comments about an individual or his or her appearance; the unwanted display of sexually suggestive objects or pictures; or any offensive physical contact, such as patting, pinching, or brushing against another's body.

Sexual Violence - physical sexual acts perpetrated against a person's will or where a person is incapable of giving consent.

Preponderance of the Evidence – the standard of proof in sexual harassment, sexual violence and sexual assault cases, which asks whether it is "more likely than not" that the sexual harassment, sexual assault or sexual violence occurred. If the evidence presented meets this standard, then the accused should be found responsible.

Title IX of the Education Amendments of 1972 (Title IX), 20 U.S.C. §§1681 *et seq.*, and its implementing regulations, 34 C.F.R. Part 106, prohibit discrimination on the basis of sex in education programs or activities operated by recipients of Federal financial assistance. Sexual harassment of students, which includes acts of sexual violence and sexual assault, is a form of sex discrimination prohibited by Title IX.

Sexual violence and sexual assault is a form of sexual harassment prohibited by Title IX. Title IX also prohibits gender-based harassment, which may include acts of verbal, nonverbal, or physical aggression, intimidation, or hostility based on sex or sex-stereotyping, even if those acts do not involve conduct of a sexual nature.

Title IX Coordinator

The College has a duty to promptly address complaints of sex discrimination, including sexual harassment, sexual assault and sexual violence, to limit the effects of the discrimination, and to prevent its recurrence.

Any faculty or staff member who receives a complaint of sex discrimination, or who wishes to file such a complaint on his/her own shall report the complaint to the Title IX Coordinator, Frank Rampello at (934) 420-2622.

If an employee or student feels that he/she has been a victim of sexual harassment, the incident may also be addressed informally with a Farmingdale State staff member or the Director of Human Resources, who in turn may notify the Title IX Coordinator. These discussions will be handled professionally and with discretion. If appropriate, an attempt will be made to resolve the problems informally and/or formally through the use of The State University of New York's Discrimination Complaint Procedure.

Filing a Sexual Harassment Sex Discrimination Complaint

Faculty & Staff

Any faculty or staff member who believes he/she has been the target of sexual harassment should promptly report this to his/her immediate supervisor or the Director of Human Resources. In a case where the complaint may involve the immediate supervisor, the Director of Human Resources should be contacted directly.

Students

Any Farmingdale State student who believes he/she has been the target of sexual misconduct should promptly report this matter to the Dean of Students, a Farmingdale State staff member, the Director of Human Resources or University Police, who in turn may report the potential charge of harassment to the Title IX Coordinator, Frank Rampello at (934) 420-2622.

Investigation Process

Pursuant to the State University of New York's Discrimination Complaint Procedure, the complaint will be investigated expeditiously by the Title IX Coordinator, Frank Rampello at (934) 420-2622 or the Director of Human Resources. Confidentiality shall be maintained whenever possible. However, absolute confidentiality is not always possible. Complaints are handled with discretion according to the principles of due process and fundamental fairness as follows:

1. A person bringing a complaint in good faith will suffer no retaliation.
2. The complaint should be in writing and sufficiently detailed.
3. The person charged will be promptly notified and given an opportunity to respond.
4. An individual will have up to 90 days after the alleged incident(s) to file a complaint. Complaints beyond the 90-day period will be evaluated on a case-by-case basis.

If a complaint is found to be valid, appropriate administrative action shall be taken, which may include, but is not limited to, counseling referrals, termination, demotion, reassignment, suspension, reprimand or training, depending on the severity of the behavior.

Retaliation against a person who files a complaint, serves as a witness, or assists or participates in any manner in this procedure is strictly prohibited and may result in disciplinary action. Retaliation is an adverse action taken against an individual as a result of complaining about unlawful discrimination or harassment, exercising a legal right, and/or participating in a complaint investigation as a third-party witness. Participants who experience retaliation should contact the Title IX Coordinator, Frank Rampello at (934) 420-2622 or the Office of Human Resources.

Sexual harassment in the workplace is a prohibited practice under Section 703 of Title VII of the 1964 Civil Rights Act as amended by the Equal Employment Opportunity Act of 1973. Inasmuch as the Equal Employment Opportunity Commission holds supervisory personnel liable for the actions of their employees and outsiders with respect to the above policy, supervisory personnel are required to inform their staff of the institutional policy and of the seriousness of the issue.

Encouraging Prompt Reporting

Campus policy encourages every member of the campus community to report a crime promptly to University Police if the victim wants to or is unable to report. Campus personnel will assist the community member in notifying local authorities, if the member requests the assistance of the local authorities.

***Reporting a crime to the police or to a campus office
does not obligate the victim to pursue criminal prosecution.***

Definitions

DATING VIOLENCE

Dating violence is any act of violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of such a relationship shall be determined based on the victim's statement and with consideration of the type and length of the relationship and the frequency of interaction between the persons involved in the relationship. Two people may be in a romantic or intimate relationship, regardless of whether the relationship is sexual in nature; however, neither a casual acquaintance nor ordinary fraternization between two individuals in a business or social context shall constitute a romantic or intimate relationship. This definition does not include acts covered under domestic violence.

Where the offense charged is rape in the third degree, a criminal sexual act in the third degree, or forcible compulsion in circumstances under which, at the time of the act of intercourse, oral sexual conduct or anal sexual conduct, the victim clearly expressed that he or she did not consent to engage in such act, and a reasonable person in the actor's situation would have understood such person's words and acts as an expression of lack of consent to such act under all the circumstances. A person is incapable of consent when he or she is: less than 17 years old; or mentally disabled; or mentally incapacitated; or physically helpless; or committed to the care and custody of the state department of correctional services, a hospital, the office of children and family services and is in residential care, or the other person is a resident or inpatient of a residential facility operated by the office of mental health, the office for people with development disabilities, or the office of alcoholism and substance abuse services, and the actor is an employee, not married to such person, who knows or reasonably should know that such person is committed to the care and custody of such department or hospital.

Procedures for Institutional Disciplinary Procedures in Cases of Domestic Violence, Dating Violence, Sexual Assault, and Stalking

The institutional disciplinary procedures will provide a fair, prompt, and impartial process from investigation to final result. The investigation and any hearing will be conducted by those who receive annual training on issues related to domestic violence, dating violence, sexual assault, and stalking, training on how to conduct an investigation, and training on how to conduct a hearing process that protects victim safety and promotes accountability. The investigation and any hearing shall also be conducted free of individuals who may have a conflict of interest or bias for or against the accuser or the accused.

Parties' Rights to Advisors

The respondent and complainant may be assisted during disciplinary hearings and related meetings, by an advisor of their choice. The respondent and complainant may present witnesses and may produce other evidence for consideration by the student conduct body. The respondent and complainant are responsible for presenting evidence on their own behalf. Advisors may speak privately to their advisee, respondent or complainant, during the proceeding. Either party may request a brief recess to consult with their advisor which will be granted at the discretion of the Dean of Students or designee. Advisors for the respondent and complainant may not present evidence or question witnesses.

Establishing Time Frames for the Review Process

The University will conduct a timely review of all complaints of domestic violence, dating violence, and/or stalking. Absent extenuating circumstances, review and resolution is expected to take place within sixty (60) calendar days from receipt of the complaint.

The preliminary review of all complaints, including any necessary interviews to be conducted and any necessary interim measures to be put in place, will usually be completed within 24 days (all uses of the word days refers to calendar days) of receipt of the complaint.

The subsequent, comprehensive review and investigation of the complaint, including interviews with all involved parties and gathering of evidence, is usually completed within 48 days of receipt of the complaint.

Results of the complaint, via either a formal hearing or waiver of hearing are typically issued within 60 days of receipt of the complaint.

An appeal of the results must be submitted within 7 days of receipt of the written result. Absent extenuating circumstances, decisions on appeals are typically issued within 7 days of submission of the appeal.

Burden of Proof

The burden of proof in all cases is “the preponderance of the evidence” – whether it is “more likely than not” that the sex discrimination, dating violence, domestic violence, sexual assault, or stalking occurred. If the evidence presented meets this standard, then the respondent must be found responsible.

Extensions

All deadlines and time requirements in the Code may be extended for good cause as determined by the Dean of Students. Both the respondent and the complainant will be notified in writing of the delay, the reason for delay, and provided the date of the new deadline or event. Extensions requested by one party will not be longer than 5 business/school days.

Evidence

Evidence to be presented by complainant(s) and respondent(s) during any hearing on the charges must be shared with the opposing party at least two (2) business days in advance of the scheduled hearing. The University Official presiding at and/or hearing the case may exclude evidence that has not been shared or adjourn the hearing to afford all parties the opportunity to review evidence to be presented during the hearing. The University Official presiding at and/or hearing the case will make the final decision relating to the admissibility of all evidence.

Notification of Findings

Within five (5) class days after the adjournment of the hearing, the student conduct hearing body shall submit written findings of fact, conclusions regarding the charge(s), and imposition of a sanction, if any, to the respondent and any College official who is determined by the Dean of Students to have a legitimate interest in the result. In the case of sexual misconduct and violations involving dating violence, domestic violence, sexual assault, or stalking, both the complainant and respondent shall also receive simultaneous notice of the results and sanctions imposed (and the rationale for the result and sanctions), as well as notice of the appellate procedures available, any possible changes to the result that may occur before it becomes final, and when the result becomes final.

Written Notifications to Students, Employees, and Victims of Dating Violence, Domestic Violence, Sexual Assault, and Stalking

For Students and Employees: The College will provide written notification to students and employees about existing and available counseling, health, mental health, victim advocacy, legal assistance, visa and immigration assistance, and other services available in community and on campus to victims of dating violence, domestic violence, sexual assault and stalking. The College will also provide information about these services in writing to victims of domestic violence, dating violence, sexual assault and stalking.

For Survivors/Victims: The College will provide written notification to victims regarding rights and options, including: available and existing on- and off-campus services such as victim advocacy, counseling, health, mental health, legal assistance, visa and immigration assistance; available and applicable institutional disciplinary procedures, and an explanation of those procedures; confidentiality in protective measures and Clery reporting and disclosure; and reasonable and available options and assistance with changing academic, living, transportation, and working situations, regardless of whether the victim chooses to report the crime to law enforcement.

Sanctions

Farmingdale State College considers dating violence, domestic violence, sexual assault, and stalking as extremely serious violations and subject to SUSPENSION and/or EXPULSION from the institution. In such cases, the Exceptional Procedure of EXECUTIVE SUSPENSION also may be invoked. Following a final determination of an institutional disciplinary procedure for cases of rape, acquaintance rape, dating violence, domestic violence, sexual assault, or stalking, the following sanctions or protective measures may be imposed: *suspension, expulsion, education programs, community service, probation, no-contact order*. Campus penalties for students found responsible for sex offenses are determined for each individual case. For more information on victims' rights and/or the rights of the accused, contact the Dean of Students office or University Police.

Retaliation

No member of the campus community shall retaliate, intimidate, threaten, coerce or otherwise discriminate against a person who files a Title IX complaint, serves as a witness, or assists or participates in a Title IX proceeding in any manner. Participants who experience retaliation should report the incident

to Farmingdale State's Title IX coordinator, Frank Rampello in Horton Hall room 210, or the Assistant Vice President for Human Resources, Marybeth Incandela, in Whitman Hall room 279.

Hospital Emergency Room

If the assault involved a sexual penetration or other physical injuries, the victim should be treated as soon as possible by medical personnel. The victim should not wash, change clothing or otherwise "clean up." Evidence can be collected several hours after an attack, but its value may be diminished. Victims should bring a full change of clothes because the clothes worn during the assault may be kept as evidence.

VICTIMS OF CAMPUS SEXUAL ASSAULT: STATEMENT OF PRINCIPLES AND RIGHTS

The College is committed to providing a safe and secure environment in which all members are treated with dignity and respect, and a campus free from all discrimination on the basis of sex. To that end, the College takes the strongest possible stance against sexual misconduct in all its forms, including sexual harassment, sexual assault, sexual violence or the use of coercion, intimidation or exploitation of others for sexual purposes. The College is actively engaged in educating its members about these vital issues and in providing timely support and assistance to victims of sexual assault.

Should a sexual assault be reported, the College will investigate allegations and take appropriate actions, to the fullest possible extent. The College supports the victim's right to privacy. In the event that a victim wishes to remain anonymous, the College will respect that request while evaluating the obligation to protect the safety and well-being of the broader community. For example, in the event that the assault/crime must be reported, the request for anonymity would be weighed against other factors, such as whether the accused individual is the subject of other complaints. In such instances, every safeguard will be taken in order to ensure the victims' anonymity. It is imperative that victims be fully supported in their efforts to heal and respond as they determine is in their own best interests. To this end the College will provide information about campus and community medical and counseling resources and support the victim's right to make choices about these resources and options.

All members and representatives of the College community, including campus officers, administrators, faculty, professional staff, employees, and students are expected to recognize and abide by the following principles regarding victims of campus-related sexual assaults:

- Make a “victim impact statement” if the accused is found in violation of the code;
- Be informed in a timely fashion (60 days) of the outcome of the hearing;
- Have the right to appeal the outcome of the hearing.

4) THE RIGHT TO LAW ENFORCEMENT AND CAMPUS INTERVENTION

- Campus personnel shall take reasonable and necessary actions to prevent further unwanted contact by victims’ alleged assailants;

- Victims shall be notified of the options for and provided assistance in changing academic and living situations if such changes are reasonably available.

5) NOTE: *STATUTORY MANDATES*

- Nothing in this Statement of Principles and Rights shall be construed to preclude or in any way restrict the University from issuing a Timely Warning when the College is aware of a reported sexual assault incident that potentially puts the campus community at risk. The College will take care not to identify the victim in such notices but may, in certain cases of continuing danger, identify the suspect, assailant or the address where the crime occurred.

Confidentiality

The institution will maintain as confidential any accommodations or protective measures provided to the victims so long as it does not impair the ability to provide such measures. Education Programs

The College has education programs to promote the awareness of rape, acquaintance rape, dating violence, domestic violence, sexual assault, and stalking. These education programs include primary prevention and awareness programs for all incoming students and new employees. These education programs will include: a statement that these crimes are prohibited at the College; definitions of consent, domestic violence, dating violence, sexual assault, and stalking in the College’s jurisdiction; safe and positive bystander intervention when there’s a risk of one of those incidents; information on risk reduction to recognize warning signs of abusive behavior and avoiding potential attacks; and information about the institutional disciplinary procedures.

Definitions:

1. Prevention Programs: These are programs to prevent dating violence, domestic violence, sexual assault, and stalking. The programs are culturally relevant, inclusive of diverse communities and identities, sustainable, responsive to community needs, and informed by research or assessed for value, effectiveness, or outcome. They also consider environmental risk and protective factors as they occur on the individual, relationship, institutional, community, and societal levels.

2. Awareness Programs: These are community-wide or audience-specific programming, initiatives, and strategies that increase audience knowledge and share information and resources to prevent violence, promote safety, and reduce perpetration.

3. Bystander Intervention: These programs and trainings offer safe and positive options that may be carried out by an individual or individuals to prevent harm or intervene when there is a risk of dating violence, domestic violence, sexual assault, or stalking. They include recognizing situations of potential harm, understanding institutional structures and cultural conditions that facilitate violence, overcoming barriers to intervening, identifying safe and effective intervention options, and taking action to intervene.

4. Ongoing Prevention & Awareness Campaigns: These include programming, initiatives, and strategies that are sustained over time and focus on increasing understanding of topics relevant to and skills for addressing dating violence, domestic violence, sexual assault, and stalking, using a range of strategies with audiences throughout the college/university and including information provided in campus education programs.

5. Primary Prevention Programs: These include programming, initiatives, and strategies informed by research or assessed for value, effectiveness, or outcome that are intended to stop dating violence, domestic violence, sexual assault, and stalking before they occur through the promotion of positive and healthy behaviors that foster healthy, mutually respectful relationships and sexuality, encourage safe bystander intervention, and seek to change behavior and social norms in healthy and safe directions.

6. Risk Reduction Programs: These programs present options designed to decrease perpetration and bystander inaction, and to increase empowerment for victims in order to promote safety and to help individuals and communities address conditions that facilitate violence.

Preserving Personal Safety: Sexual Assault Programs Offered

At the beginning of each school year, Farmingdale State College provides sexual assault awareness programs in the residence halls. These programs are open to the entire campus community. The University Police Department also offers a sexual assault awareness program. This program is designed to offer members of the campus community the opportunity to speak with a University Police officer in small groups on the topic of sexual assault awareness and campus issues. The topics discussed will touch upon victims' rights, support services, campus policies concerning sexual assault, and New York State Penal Law.

The University Police Department at Farmingdale State College has a long tradition of providing a wide variety of community services geared towards the safety and security of our campus community. Our goal with community outreach programs is to create a dialogue with the community, maintain open lines of communication, provide educational materials and programs, and assist students in reducing the opportunity for crime. These programs offer students, faculty, and staff the opportunity to meet representatives of the department and to increase awareness of their surroundings with regards to personal safety.

One such program conducted by members of the University Police Department is the RAD course. The Rape Aggression Defense System (RAD) is a program of realistic, self-defense tactics and techniques. The RAD system is a comprehensive course for women that begins with awareness, prevention, risk reduction, and avoidance, while progressing on to the basics of hands-on defense training.

At every new student orientation, a representative of the University Police Department speaks to incoming students about the University Police Department, its outreach programs and ways to be safe. Students are reminded to contact University Police for all emergencies and ways to contact the department in order to participate in some of its safety programs. Students are also strongly encouraged to sign up for RAVE Alert. RAVE Alert is a secure, web-based emergency alert system that is able to warn students, faculty and staff of an impending emergency, such as an unsafe campus condition or severe weather, and provide timely and ongoing information to protect lives and minimize campus disruption. RAVE Alert can notify registrants by email, text message, telephone and cell phone messaging, Short Message Service and paging, dial-out voice messaging, web pages and fax.

Frequently our officers are invited by college professors to speak in their classes about safety issues and features of the department. After a brief presentation, the officer will conduct a question and answer session with regards to safety and current events.

Several of our officers are first aid, AED (Automated External Defibrillator), and CPR instructors. Several classes are conducted each semester and personal safety is a component of each class. With the placement of over 90 AEDs at Farmingdale State, the department has gone to great lengths to train as many staff, faculty, and students as it can.

At RA training each semester, the University Police Department makes it a point to have one of its members speak to all of the RA's. This is absolutely crucial, because not only are they on the front lines of reporting incidents in the residence halls, but they provide an opportunity to do programming inside the residence halls on personal safety topics and crime prevention. The University Police Department is routinely asked to do programs for RA's and our various programs are always well received. Whether it is the RAD program or a discussion of personal safety issues, University Police is a staple in the residence halls and throughout the campus community.

Additional Police Components

Bike Patrol —certified police cyclists operate routinely to complement the foot and vehicle patrol.

Operation Identification — a state-wide effort to discourage burglary and theft by engraving property with an easily traced (in the US and Canada) identification number. This is a free service through University Police.

Off -Campus Jurisdiction — Farmingdale State College's policy allows for pursuing judicial action against students who are involved in off-campus incidents which also violate College policy and/or federal, state, and/or local laws, statutes, or ordinances.

Suspension/Dismissal — students who are suspended or dismissed are NOT ALLOWED to be on campus or at campus-sponsored events for any reason unless permission has been granted by the Dean of Students office.

Persona Non Grata (PNG) — an order of exclusion from campus to non-students who have demonstrated that their presence on campus would be a threat to the campus and/or campus members. Violators can be arrested for criminal trespass.

UNFOUNDED CRIMES

If a reported crime is investigated by law enforcement authorities and found to be false or baseless, the crime is “unfounded” and will not be included in our institution’s statistics. **Only sworn or commissioned law enforcement personnel may “unfound” a crime.** All unfounded crimes will be reported to the Department of Education and be disclosed in the Annual Security Report’s Chart of Annual Crime Statistics.

Notice

Compliance with the provisions found in this annual safety report does not constitute a violation of section 444 of the General Education Provisions Act (20 U.S.C. 1232g), commonly known as the Family Educational Rights and Privacy Act of 1974 (FERPA).

CAMPUS FIRE SAFETY REPORT

Emergency Evacuation

Student Housing

Evacuation procedures are posted in each building. Special procedures are in place for evacuating students with disabilities and are disseminated via campus-wide e-mail each semester.

In the residence halls, students are expected to leave the facility immediately after the fire alarm is activated. They are instructed to not use elevators and particular stairwells (center stairwells in low rise halls). Staff members are expected to leave at the time of an alarm and make cursory checks of floors and wings as they progress downward to the main floor of a hall. Moreover, staff members assume responsibilities such as calling the elevators to the ground floor, and securing the outside doors to prohibit students from reentering the hall as they wait for the University Police/fire department to determine the cause of the alarm activation. Staff members report to University Police and the local fire department any special needs or issues they observe while evacuating the facility. Once the facility is deemed safe, staff members check rooms to verify that evacuation protocol has been observed by students. Specific evacuation procedures and Staff responsibilities are outlined in the “Residence Life Handbook” which is available online and through the Office of Residence Life.

Fire Safety Education and Training

All faculty, staff, and students are expected to familiarize themselves with the evacuation plan for the buildings in which they occupy including the identified assembly places.

Evacuation routes are posted in the hallways on every floor. In the residence halls, students are instructed at the dormitory floor meeting and other wing meetings on evacuation procedures. Programs are also presented in residence halls on various safety issues including fire safety. Students are reminded about fire evacuation procedures during all hall meetings, floor meetings, or after problems occur during fire drills and accidental activations of the alarm.

Additionally, student rooms are thoroughly inspected during Thanksgiving, winter, and spring breaks. Any “illegal” item found during an inspection is confiscated and, in some instances, students may be referred to the Dean of Students.

Employees will receive Emergency Action Plan training when they are initially assigned to a position and annually thereafter. Employees will also receive training when certain responsibilities and aspects of this plan change. This training will include: protocol for reporting fires; procedures for evacuating a building; use of fire extinguishers; and how to respond to other emergencies. Students will receive this training during the beginning of the fall semester or orientation sessions.

FIRE DRILLS

In accordance with New York State Law, 10 Fire Drills were conducted in 2021 in the residence halls.
