The Dual Degree track is designed to give two degrees as opposed to the dual major that only gives one degree. The second degree is a minimum of 30 credits of coursework above the first degree as approved by the Department Chair (see College Catalog for additional information).

The additional minimum 30 credits required for the B.S. in Architectural Engineering Technology are in the following courses:

ARC 255 Architectural Design I (4 credits)
ARC 257 Architectural Design II (4 credits)
ARC 376 Architectural Design III (4 credits)
ARC 476 Architectural Design IV (4 credits)
ARC 486 Architectural Design V (4 credits)
ARC 350W Architectural Theory & Design Factors (3 credits)
ARC 362 History of Western Architecture (3 credits)
CON 361 Govt. Building & Environmental Codes & Regulations (3 credits)
XXX XXX Plus any additional course of interest (can also be a course not used toward the first degree) to reach the minimum 30 credit requirement.

The additional minimum 30 credits required for the B.S. Construction Engineering Technology are in the following courses:

BUS 109 Management, Theories and Practices (3 credits) (Replaces 1 Technical Elective)
CON 103 Surveying (3 credits)
CON 303 Hydraulics (3 Credits)
XXX-XXX Technical Elective II (3 Credits) – course not required for the architecture degree
CON 350 Intro. To Construction Engineering (3 Credits)
CON 355 Construction Management Finance and Accounting Principles (3 Credit) (replaces CON 408)
CON 401W Construction Project Management and Scheduling (3 credits)
CON 402 Civil Engineering Materials (3 credits)
CON 406 Advanced Project Planning and Scheduling (3 credits)
CON 496 Capstone Project (3 credits)

Please note that you cannot use program courses in the first degree to satisfy technical electives required in the second degree, for example ARC 255, ARC 362, or CON 361 from the B.S. in Architectural Engineering Technology degree cannot be used as technical electives in the B.S. in Construction Management Engineering Technology degree. At this time DegreeWorks is not set up to do Dual Degrees so it will be certified by hand for graduation.
