

If you do not know the MAC address, please follow these steps:

FOR APPLE DEVICES (iPhone, iPad, iPod Touch)

- a. Tap Settings
- b. Select General
- c. Select About
- d. The Mac address is listed as Wi-Fi Address.

FOR ANDROID DEVICES (Android phone, tablet, Amazon Kindle, etc.)

- a. Tap Settings
- b. Select About (may say "About" phone, tablet, etc.)
- c. Select Status
- d. The Mac address is listed as Wi-Fi MAC Address.

FOR MICROSOFT WINDOWS 10 DEVICES

- a. Open the command prompt by right-clicking on the Start button and select Command Prompt from the menu. Search "network connections" in the taskbar and select "View network connections."
- b. Type in **ipconfig /all** and press Enter. Make sure you type **ipconfig /all** exactly as shown, with a single space between **ipconfig** and **/all**.
- c. A list of data will appear. Locate the heading **Wireless LAN adapter WiFi:**
- d. Beneath the above heading, you should see **Physical Address** listed a few lines down. The sequence of numbers and letters (ex. 6F-3D-45-00...) is the MAC address.

FOR MICROSOFT WINDOWS 7 DEVICES

- a. Click on the Windows Logo in the bottom left corner.
- b. In the search box, type in: 'cmd' (without the quotes), then press enter.
- c. You should see the command prompt window open (black background with white letters).
- d. Type in 'getmac' (without the quotes), then hit enter.
- e. Under 'Physical Address' you'll see your device's MAC Address as series of letters and numbers like: 00-11-AA-BB-CC-33

FOR Macbook Devices

- a. Select *System Preferences* from the Apple menu at the top left of your screen.
- b. Click *Network* from the System Preferences menu.
- c. Choose *Wi-Fi* from the list of interfaces on the left and click the *Advanced* button.
- d. Choose the *Hardware* tab under which you will see the MAC address of your wireless card.
- e. Press *Cancel* to return to the Network menu. Choose *Ethernet* from the list of interfaces on the left and click the *Advanced* button.
- f. Choose the *Hardware* tab under which you will see the MAC address of your Ethernet card.

Gaming Devices

XBOX ONE

- a. Navigate to My Games and Apps
- b. Select Settings.
- c. Select Network.
- d. Select Advanced Settings.
- e. The MAC Addresses for the wired and wireless adapters should be displayed.

PLAYSTATION 4

- a. Arrow up and over to Settings in the PS4 Menu
- b. Select System Settings.
- c. Select System Information.
- d. The Mac Address will be then displaying on the screen.
