

## Louis J. D'Onofrio, PE

### Education

Bachelor of Engineering degree in Engineering Science, SUNY Stony Brook

Master of Science degree in Management Engineering, LIU-Post.

Licensed Professional Engineer in New York State

### Professional Affiliations

IEEE LI Section Chair, 2018 and 2019; IEEE LI Power & Energy Society Vice-Chair, 2019 and 2020.

NYS Society of Professional Engineers, Vice-President of the Long Island Chapter.

### Biography

Louis D'Onofrio has many years of industry experience in the power industry as an Engineer and Project Manager. As an Engineer in the Substation Department, he was responsible for diagnostic testing of the electrical equipment; performing quality inspections prior to shipment of the equipment; and training of the technicians and engineers in the department. As a Project Manager, he was responsible for new substation installations and the interconnections for new power generation facilities.

In 2016 Lou became a Senior Advisor for M.J. Beck Consulting LLC. He was on the team that provided support for the PSEGLI 280MW renewable portfolio. Lou had lead responsibility for two of the projects: the Shoreham Solar Commons 24MW facility that went into commercial operation in June 2018; and the 20MW Riverhead Solar 1 Project in Calverton that went into commercial operation in June 2019.

In 2019, Lou became an adjunct instructor for the Farmingdale State College, Renewable Energy and Sustainability Center (RESC). He taught the Energy Industry Fundamentals course that was developed by the Center for Energy Workforce Development (CEWD). Lou was invited to join the Executive Advisory Board for the International Energy and Sustainability Conference at Farmingdale State College. He chaired the Geothermal Energy pre-conference seminar on November 17, 2019.

In 2020, Lou again taught the Energy Industry Fundamentals course at Farmingdale State College, and he is presently preparing to teach it as an instructor-led online course.
